Art-in-the-Park

Your Committee needs to know if you are willing to exhibit in the open air on a regular basis, say once per month, in the George Botanical Gardens. Overtures have been made by their management and we cannot reply until we have a commitment

Museum Gardens

Alternative venue for Open Air exhibiting of Art. Give some thought to your involvement next year in exhibiting your art one day per month instead or as well as.

Museum Gift Shop

Kirsten is putting together a gift shop to compliment the Butterfly Farm. If you have any small paintings, pottery, glassware, or sculpture which might be appropriate please pay Kirsten a visit and bring along your contribution. She has organised with the Museum Management that the same commission basis will exist.

RE-AWAKENING RE-ENERGISING RE-NEWAL

'HALLO FELLOW ARTISTS'

IS IT NOT MARVELLOUS TO BE ACTIVE AGAIN ?

SCAVA held our first committee meeting since last March. We needed to get together in the flesh to be able to pinch ourselves into life and define our existence. It was a real thrill to meet with other artists again, greet each other, share a coffee, acknowledge our existence as an Art Society and give us that 'get up and go' which in last March 'got up and left'. "Phew—What an ordeal this country has been through !!!!!"

ANNUAL GENERAL MEETING At our Committee Meeting, it was decided by all that it would be held on Sat. 7th Nov. at 10 a.m. in the Museum. From that day forward we will be alive and kicking and living and breathing and raring to go. We will send out membership cards to members in receipt of annual fee. This will not be raised. It will remain at R200 for the year and the date from which our new year will commence is date of AGM. You really should attend. Do try.

BIG BIG EVENT Last March we planned our Old Masters Exhibition and let our members know that they can exhibit copies of their favourite in its original format or they can paint their own "Old Master" in their own style or they can interpret the painting in any format which is as exciting as they can make it.
