Special invitation to participate in SCAVA's November 2024-January 2025 exhibition, titled "n Blom in Elke Vrou".

"n Blom in Elke Vrou" is a stage production by Petronel Baard that captivated audiences in 2023 at the KKNK and Woordfees in Stellenbosch.

It's a light classical, poetic journey through the four seasons, exploring our identity in Africa through native plant life.

Artists are invited to submit art depicting native plant life/landscape in any of the four categories:

Summer

Autumn

Winter

Spring

The opening night is likely to be on Friday, November 15th, 2024, accompanied by a performance of the stunning show by Petronel, her orchestra led by Franco Engelbrecht, and members of the South Cape Children's Choir conducted by Jan-Erik Swart.

There is a flower in each of us, deserving all the care in the universe.

The performance also refers to our inner journey and seasons.
